3. **Speeches**
4. **Teaching sessions**
5. **Exercises**
6. **Drills**
7. **Role play**
8. **Tests**
9. **Home work**
10. **Breaks**
11. **Time taken to complete an assignment or project**
12. **Wake up call (Sleep / Power Nap)**
13. **Experiments**
14. **Meditation, yoga, exercise session**
15. **And any other time sensitive activity**

Dr. TIME Features

1. **Minimize** – Click and Dr. TIME® will move to the Task Bar of your computer
2. **Quit** – Closes Dr. TIME®
3. **About** – Good to read information about the application, copyright, how to contact us and so on.
4. **Collapse/ Expand** toggle – Use the Collapse button to keep only the digital timer on screen. Toggle the button and expand Dr. TIME® to see the entire window. Dr. TIME® is designed to be compact and occupy only part of your screen. It does not / can not occupy the full screen.
5. **Switch to tray** – Dr. TIME® moves to the system tray and works from there. Double click its icon in the system tray and it reappears on your screen.
6. **On top/ Not on Top** (Toggle) – Would you like Dr. TIME® to remain on top of all the other windows? Click 'On Top', Would you like some other window to be above Dr. TIME®? Click 'Not on Top' and click the window that you would like to see on top. Dr. TIME® will continue to work in the background.
7. **Count up/ Count down** (Toggle) – Switches Dr. TIME® from the 'Count Up' mode to the 'Count down' mode and vice versa.
8. **Reset Timer** – Dr. TIME® loves this button. It seems to re-energize it. After every use, click this and Dr. TIME® is ready for one more round!
9. **Hour/Min/Sec** – Enter the time you would like Dr. TIME® to count down. The maximum is 99:59:59.
10. **Set Timer** – Hit this button and Dr. TIME® is ready for the next step.
11. **Set buzzer** – You have a number of choices as to what event occurs at the end of the time you entered in Step 9 above.

Buzzers

i. Bell ii. Cow iii. Store iv. Ding v. Dog bark vi. Dog tap vii. Bull

Select the sound you want Dr. TIME® to play at the end of the chosen time. No, Dr. TIME® accepts no liability for the consequences of your playing the Bull (or any other) buzzer, what it might imply, and what the presenter might do to you!

12. **Start** – Hit this button and Dr. TIME® starts counting down.

To use count down timer

Set time – Enter hours, minutes and seconds as required.

Click **Set Timer**

Choose Buzzer – Click **Set Buzzer** and a menu of sounds appears. Click the concluding sound of your choice and Dr. TIME® will play it thrice at the end of the entered time period.

Click **Start**

Changing the time: If you would like to change the time, after you have pressed the start button, Click reset timer and go through Steps 1 to 5 again.

To use count up timer

Click **Count Up** in the view above. The rest of the screen disappears and the view below appears. The count up starts immediately. It can count up to 99:59:59.

1. Click **Reset** – to reset the clock to zero and get ready to count up again. The clock will go back to zero and immediately start counting again.
2. Click **Pause** –to stop the counting up process temporarily
3. Click **Continue** – to restart the counting up process from the point in time when you had paused.
4. Click **Stop** – to stop the counting up process. The clock will show the time at which you stopped the clock. You can not continue from here.
5. Click **Count Down** – to start the count down alarm if you wish.

Lease

Expiry of lease – Dr. TIME® has been leased to you (as a single user license) for a period of one year. To renew the lease or to purchase additional licenses, contact us at the address below.
